# Chairlift Vianden

## Chairlift Vianden

The Grand Duchy's only chairlift takes you to an altitude of 440m. Once at the top a breath-taking view over Vianden, the castle and the 'Our' Valley awaits you. The small restaurant and its terrace at the mountain station are the perfect place of rest and refreshment for mind and body before hiking back into town or taking the chairlift.

If you want to visit Vianden Castle, you can also reach it via a short hiking trail. Once you arrive at the upper station of the cable car, the path to the castle is also visibly marked. After about 15 minutes of walking, you will see the castle in all its splendour.

### Technical information about the cable car
